Foreword

Since publishing the first edition of the Korean Stud Book in 1998, the Korea Racing Authority (KRA) has published the fifth edition in 2013 to comply with and implement the maintenance requirements of the International Stud Book. It opened the website for thoroughbred pedigree information in English in 2014 and has posted the Annual Supplement and Stud Book on the website instead of publishing them in booklets. The main objective of this publication of the sixth edition of the Korean Stud Book is to protect the Korean Stud Book from any threats such as server damage, fire, and causing data loss and to reexamine the breeding results. The sixth edition of the Korean Stud Book contains a wide range of contents, including all records of breeding and produce of domestic brood mares of thoroughbreds, a list of Stallions, Name Addenda and the Thoroughbred Rules.

KRA supported the successful holding of the 37th Asian Racing Conference and the 15th Asian & Oceanian Stud Book Committee in 2018. With the goal of becoming the advanced country in horse racing, including elevation to Part I, KRA is carrying out various programs to enhance the international status of Korean horse racing and thoroughbred such as sponsoring Korea Cup and Korea Sprint (G1) International Racing that began in 2016 and continually participating in international horse racing games.

As an internally authorized Thoroughbred Stud Book, KRA complies with the guidelines of the International Stud Book Committee and the International Agreement on Breeding, Racing and Wagering. As a Approved Stud Book, we are committed to preserving the Stud Book and enhancing and proliferating the genetic trait of Korean thoroughbreds.
